JOURNAL OF ECONOMETRICS Vol. 55, No. 1/2 (1993) pp. 1–357
ANNALS 1993-1

CONTENTS

SEASONALITY AND ECONOMETRIC MODELS

Editor's introduction: Seasonality and econometric models 1
Christopher A. Sims, Rational expectations modeling with seasonally adjusted data 9
Lars Peter Hansen and Thomas J. Sargent, Seasonality and approximation errors in rational expectations models 21
Eric Ghysels and Pierre Perron, The effect of seasonal adjustment filters on tests for a unit root 57
Francis X. Diebold, Discussion: The effect of seasonal adjustment filters on tests for a unit root 99
Marc Nerlove, David Ross, and Douglas Willson, The importance of seasonality in inventory models: Evidence from business survey data 105
Jean-Marie Dufour, Discussion: The importance of seasonality in inventory models 129
Spencer D. Krane, Induced seasonality and production-smoothing models of inventory behavior 135
Alastair Hall, Discussion: Induced seasonality and production-smoothing models of inventory behavior 169
Fabio Canova, Forecasting time series with common seasonal patterns 173
John Geweke, Discussion: Forecasting time series with common seasonal patterns 201
Jacques Raynauld and Jean-Guy Simonato, Seasonal BVAR models: A search along some time domain priors 203
Arnold Zellner, Discussion: Seasonal BVAR models 231
William R. Bell and David W. Wilcox, The effect of sampling error on the time series behavior of consumption data 235
Allan W. Gregory and Tony Wirjanto, Discussion: The effect of sampling error on the time series behavior of consumption data 267
R.F. Engle, C.W.J. Granger, S. Hylleberg, and H.S. Lee, Seasonal cointegration: The Japanese consumption function 275
Denise R. Osborn, Discussion: Seasonal cointegration 299
J. Joseph Beaulieu and Jeffrey A. Miron, Seasonal unit roots in aggregate U.S. data 305
David A. Dickey, Discussion: Seasonal unit roots in aggregate U.S. data 329
Estela Bee Dagum and Benoît Quenneville, Dynamic linear models for time series components 333
David F. Findley, Discussion: Dynamic linear models for time series components 353
